

# BUILDING ROBOTS, ACHIEVING MORE.

**Special Olympics Unified Robotics** brings the sport of robotics to students of all levels of learning. Teams design, build, and program robots for a competitive inter-school tournament. Partners and athletes work one-on-one in a fully inclusive environment. No prior experience is necessary!

**Collaborate.**

Partners work alongside athletes, forming small teams with an adaptable program.

**Create.**

Teams design, build, and program their own robot using LEGO® MINDSTORMS® Kits.

**Compete.**

Each team presents their robot and participates in a championship tournament.

SEP. 19 - NOV. 12  
2017 Season
